EXPERIENCE

Instituto Adventista de Tecnologia, São Paulo — *Systems Intern*

JANUARY 2025 - SEPTEMBER 2025

Work in the development of corporate web applications using Angular 20, with implementation of modular components, dependency injection, services, and advanced data binding. Experience in using HTML5, CSS3, and Angular Material to create responsive interfaces that adhere to usability guidelines. Knowledge of Docker for application containerization and standardization of development environments. Participation in version control processes with Git, code review, testing, and continuous deployment, with a focus on best practices in architecture, clean code, and component-oriented development.
